### **DDA & Stateline No. 7 Unveil Final Design**

The Casper Downtown Development Authority and Stateline No. 7 Architects will be revealing the final design for the downtown, events-driven public gathering space. The DDA will be hosting a public Open House at the Yellowstone Garage on January 7, 2016 from 5:30pm until 7:00pm.

“The design is a culmination of ideas from community members, lessons learned from other spaces around the country and what will work best in our climate,” said Lyle Murtha of Stateline No.7 Architects.

The outdoor civic space will be located at the corner of W. Yellowstone and David Street. It will be a 43,000 square foot events space that will host up to 200 events per year. These events range from concerts to ice skating and farmer’s markets.

“This is a huge step forward in the process of bringing this to the heart of our community. The input from the public has been invaluable and we are excited to show everyone what Stateline No. 7 has put together,” said Kevin Hawley, Director of the Downtown Development Authority.
